

YENKO/SC™ 427

An All-American Supercar

LEFT: TVS2300 Series Supercharger

CENTER: Body color engine covers with Yenko/SC™ graphics. Yenko nameplate on supercharger

RIGHT: Yenko graphics on calipers

The year was 1969 and the muscle car wars were in full swing. Each one of the Big Three had developed their own version of the ultimate high-performance big-block engine pony car. That led to Chevrolet's Central Office Production Order (COPO) system producing a limited run of 1969 Camaros with the L72 427 CID engine, and other factory installed performance equipment, for a very select number of dealers.

Now, in the tradition of those awesome 1st generation muscle cars, Specialty Vehicle Engineering introduces the 2015 Yenko/SC™ Camaro. Based off Chevy's ZL1 model, only 50 of these Yenko/SC specialty vehicles will be built; and with a 700HP Supercharged 427ci powerplant, they'll go fast! Literally.

This Limited Edition 2015

Yenko/SC™ Camaro is available in Coupe or Convertible models, with either manual or automatic transmission, just like many of the 1st generation muscle cars were.

We based it off the ZL1 Camaro, Chevrolet's most powerful production Camaro ever, so it would include all of the great performance, handling and braking features that come standard, to properly balance the awesome power of the 700HP Supercharged 427ci LS7 engine - features that include Magnetic Ride Control, Lowering Spring Package, Performance Sized Stabilizer Bars, Performance Traction Management (coupe only), ZR-1 Dual Disc Clutch (manual only), 6L90 Heavy Duty Automatic Transmission, Launch Control, Differential Cooling System, HD Differential, Upgraded Fuel System, 6-Piston Brembo Brake Calipers with 14.6" Front Rotors, and Goodyear Eagle F1 Supercar Tires.

The

RTM hood with integrated scoop; Yenko sYc® hood stripes; GM heritage-style front grille with body color painted surround.

20"x10" 5-spoke gunmetal finish wheels with sYc® centercaps capture the heritage of the original torque thrust wheels. Production ZL1 Goodyear Eagle F1 tires with raised white lettering; Yenko 427 fender and decklid badges.

Yenko/SC™ side stripe graphics available in 6 colors; flat black painted rear spoiler; flat black rear 1/4 panel gill insert graphics.

Ultimate Streetfighter
