1000 HP

YENKO/SC[®] Stage II Camaro

In 1969 the muscle car wars were in full swing, with GM, Ford and Chrysler each developing their own big-block powered performance cars. Not to be outdone, Chevrolet's Central Office Production Order (COPO) system produced a limited run of Camaros with the now infamous ZL-1 all-aluminum big-block engine.

Now in the spirit of those awesome vehicles, Specialty Vehicle Engineering will build **50** of these 2020 YENKO/SC® Stage II **1000HP** Camaros with manual transmission only, and they'll all go very fast... literally!
