in chrome and red chrome and Specialty
Vehicle Engineering Limited Edition badge

This powerhouse engine and supercharger assembly on our 2024/25 **SPORT EDITION Supercharged** Yukon delivers **700HP (5.3L)**, **800HP (6.2L)** or **1000HP (6.8L)** and represents the latest in state-of-the-art performance engine technology. It features a blueprinted aluminum block, race-quality computer-balanced rotating assembly, including forged 1538MV twisted steel crankshaft for 5.3L and 6.2L or a 4340 steel crankshaft for 6.8L, forged aluminum pistons, upgraded cylinder heads, and our own high-output supercharger assembly. A custom stainless steel exhaust system is also included (requires factory dual exhaust system).

**NECK-SNAPPING PERFORMANCE NOT FOR THE FAINT-AT-HEART!
NOW AVAILABLE WITH 91 OR 93 OCTANE CALIBRATION!**

SUPERCHARGER COMES STANDARD IN BLACK. CUSTOM COLORS OPTIONAL. SHOWN IN BODY COLOR PAINT.

WITH ADDITION OF OUR NEW, PATENT PENDING BOOST-BY-WIRE™ CONTROL SYSTEM, YOU NOW HAVE THE BENEFIT OF FULL VARIABLE BOOST CONTROL!

As a consequence of using positive displacement superchargers as a power adder, you can have drivability issues under normal driving conditions. Since the power comes on like an "on/off" switch, it makes it difficult to control power demand in situations where you do not want maximum acceleration and can be unpleasant to drive.

We solved this problem with our **Boost-By-Wire™ Control System**, eliminating the problem completely. The system we've developed works very simply; the more you press the accelerator pedal, the more boost your supercharger will produce. You still get all the neck-snapping instant power from the positive displacement supercharger, but it is now controlled with your foot as you need it and makes the vehicle much more pleasant to drive.

Our patent pending **Dedicated Drive System** provides a separate serpentine belt that only drives the supercharger and provides 33 percent more surface area to eliminate belt slip common on other kits.

OPTIONAL retractable side steps instantly extend when you open the door, and retract out of sight when the door closes

SPORT EDITION
SUPERCHARGED

THE ULTIMATE HOT ROD SUV!

OUR 2024/25 SUPERCHARGED YUKON SPORT EDITION COULD EASILY QUALIFY AS THE QUICKEST 2024/25 LIMITED PRODUCTION FULL-SIZE SUV IN THE WORLD.

NOTE: Only 50 each 2024/25 700HP, 800HP, and 1000HP Supercharged Sport Edition Yukon and Yukon XL SUVs will be built.

The hood insert is manufactured from OEM-quality high-impact composite material and comes standard in gloss-finish body color with flat black louvers and 700HP, 800HP, or 1000HP badges (option delete available)

OPTIONAL Body Color Paint Package includes the hood extension, grille surround, fog lamp surrounds, and liftgate accent (on models with factory chrome)

OPTIONAL Black-out Trim Package includes lower front fascia, grille, and rear bumper trim (on models with factory chrome) with black GMC emblem

OPTIONAL Black-out Trim Package includes roof-mounted side bars, window trim, bodyside molding (on models with factory chrome)

22" x 10" wheels in gunmetal, satin black, or satin black with red line stripe, SE centercaps in red/silver or red/black and Nitto front and rear performance tires

SPORT EDITION
